

ELECTRICITY TARIFF REVISION FOR THE PERIOD 1 OCTOBER TO 31 DECEMBER 2019

Singapore, 30 September 2019 – For the period from 1 October to 31 December 2019, electricity tariffs (before 7% GST) will decrease by an average of 3.3% or 0.79 cent per kWh compared with the previous quarter. This is mainly due to the lower cost of natural gas for electricity generation compared with the previous quarter.

For households, the electricity tariff (before 7% GST) will decrease from 24.22 to 23.43 cents per kWh for 1 October to 31 December 2019. The average monthly electricity bill for families living in four-room HDB flats will decrease by \$2.84 (before 7% GST) (see Appendix 3 for the average monthly electricity bill for different household types).

BREAKDOWN OF ELECTRICITY TARIFF

1. The electricity tariff consists of the following four components:

- a) Energy costs (paid to the generation companies): This component is adjusted quarterly to reflect changes in the cost of fuel and power generation. The fuel cost is the cost of imported natural gas, which is tied to oil prices by commercial contracts.
- b) Network costs (paid to SP PowerAssets): This fee is reviewed annually.
- c) Market Support Services Fee (paid to SP Services): This fee is reviewed annually.
- d) Market Administration and Power System Operation Fee (paid to Energy Market Company and Power System Operator): This fee is reviewed annually to recover the costs of operating the electricity wholesale market and power system.
